Conversation: Los Angeles Wilshire District

I live in the Los Angeles area called the Wilshire District, a very demographically diverse area. I live the diversity of my neighbors and businesses in my district.

Please draw the City of Los Angeles districts in mostly regular geometric round, or square shapes and make them as politically mixed as possible to further the competition of candidates from different political parties. I am so depressed that one party always wins my district and I feel there is no real competition of ideas in the district elections.

I think it is vital to have mixed demographics in voting areas to insure moderate views and competitive races for officeholders.

Matthew A.
