Re: Redrawing District Lines

[REDACTED]
Commissioners:

I live in northwest Fresno (city) just south of Herndon Avenue.

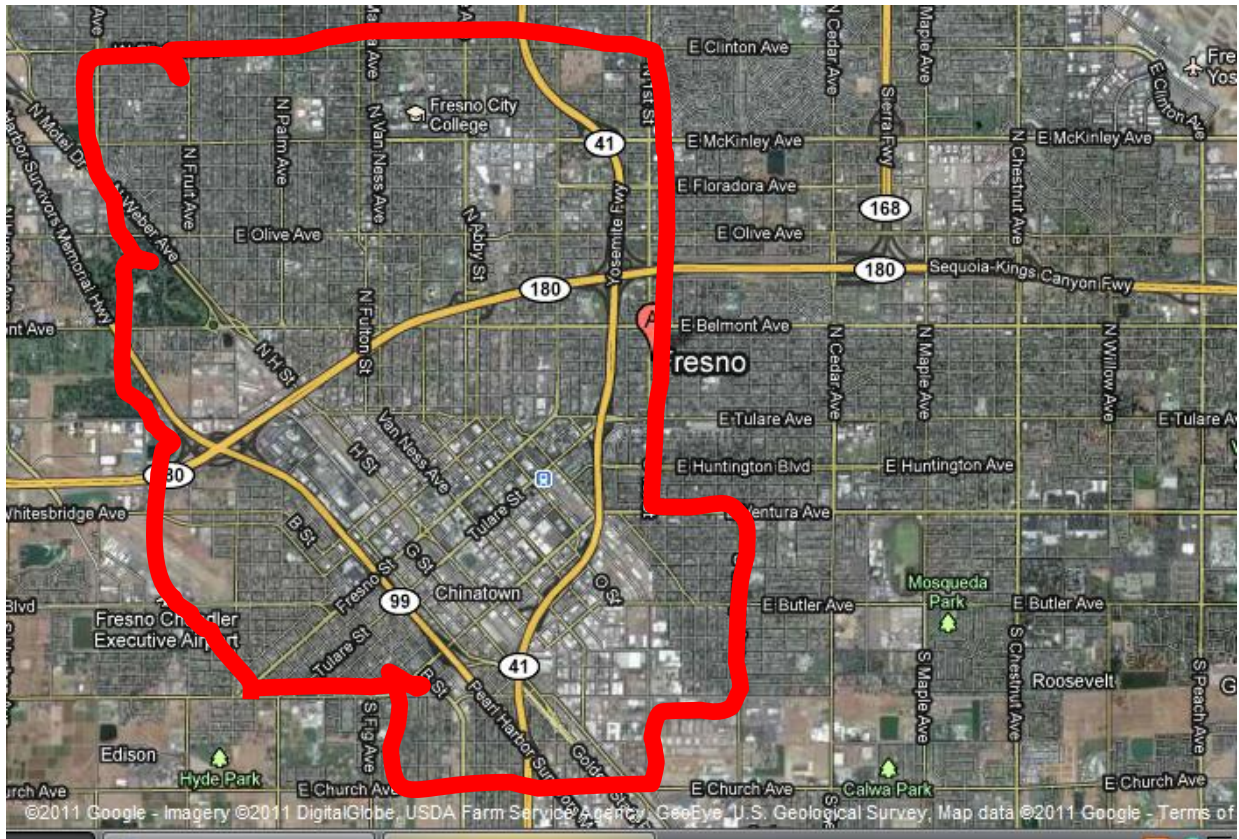

I have been following your hearings and understand you directed your staff to create a possible “mountain” district including Calaveras, Tuolumne, Mariposa counties and the mountain areas of Fresno and Tulare counties

While I agree with your plan to create a mountain, or “foothill” district, I would recommend some changes.

Northeast and northwest portions of the Fresno city limits identify best with communities to the north, including the city of Madera and going up to the recreational areas of Madera County. I suggest you add in the *entire county* of Madera (the city limits, etc.) and my north Fresno portion north of Shaw Avenue to bring in the right amount of people rather than going north of Calaveras County and out of the Central Valley.

Sincerely,

Sara Mirhadi

This is the core of Fresno’s creative community. The community consistently works to improve the City at large and shares the same values. It is a mix of artist, students and professionals. There are always major events in this area and many of the people who put these events on consider this place home.

This is a mixture of Hispanic, Asian, and Caucasian. The main language is English and Spanish. This area also has a very diverse educational level.

Here are some other recommendations
