Conversation: Redistricting

Sirs,

I have lived in Kern County most of my life. We have a personal relationship with our representatives in Bakersfield and Sacramento., Putting us into a district that is a large metropolitan area is an injustice to the people of this county/town. I haven't talked to one person that liked this proposal. Please use some reason. If this country is supposed to be about the people than don't put us in a big no personal district.

Dale Lane
