Subject: redistricting eastern kern county

Message Body:

I've been a resident of China Lake and Ridgecrest since 1947 and there is no need to redistrict this area. We have always been linked to Bakersfield and if you polled the residents here, at least ninety percent would tell you to leave it the way it is. We have nothing in common with Lancaster which is in LA county and a whole different world. We are not part of Antelope valley, not even close. We are Indian Wells Valley, with a mountain chain separating the two valleys. We have representatives who are from the southern central valley who understaned this area, and redestricting would cause us to lose them. We are quite happy with what we have and wouldn't want to see any changes.
