Conversation: Ridgecrest needs to stay in Kern County

Cerro Coso College is part of Kern Community College District and a wonderful resource for Ridgecrest. We share commitment and values with Kern County ONLY!

The decisions made by the Commission can be influenced by public comment so it is important that they hear from as many individuals as possible to make it clear that our area is integrally associated with Kern County in many different ways:

- Government revenues and services through Kern County

- Kern Community College District

- Knowledge of the military mission in California by Kern County officials and residents

- Shared cultural and non-urban values
