Conversation: Citizens Redistricting Commission

The redistricting of Ridgecrest and Indian Wells Valley would not be economical to our best interests.

We are presently well represented in 22nd Congressional District (Federal) the 32nd Assembly District (State) and 18 Senate District (State) and our voices are heard by Kern County.

We would not have the representation with either Los Angeles or the San Bernardino County. They are too large now and have different priorities and interests.

Some of our integrated services comes through Kern County; they are knowledgeable of the military mission of NAWS; our teaching personnel and students from the Community College in this area; and our cultural and non urban values are understandable to Kern County.

James & Muriel Bryant
