Message from [REDACTED]

Dear Commissioners:

I am a resident of Pleasanton and a member of the Tri-Valley Coalition. The Tri-Valley Coalition is a group that is advocating for our community of interest here in the Tri-Valley to stay together in the new redistricting lines. This is important because of the community of interest which exists among the Tri-Valley cities including our shared regional priorities, transportation interests, civic business and labor and associations and most importantly our types of business and economic development our Tri-Valley communities engage in. We are neither agricultural nor rural communities and should not be lumped together with those communities to our south and east. They have their own community of interest and totally different economic and employment base than we in the Tri-Valley have. The Tri-valley is a long-standing and well recognized regional area that should not be cut up into different political subdivisions.

I recommend the Tri-Valley cities of Danville, Livermore, Dublin, San Ramon and Pleasanton be kept together in redistricting. To have enough population to make new districts, our community should be joined with similar towns, such as Walnut Creek and Lamorinda, by going further north into the valley along the main transportation route of Highway 680.

Please see the attached map for the boundaries of the Tri-Valley and thank you for your time and dedication in listening to our voice as a community.

Sincerely,

Diane Ravnik
