Message Body:

Marin County should not share a district with the East Bay or San Francisco.

To do so would simply be to gerrymander the district boundaries again.

Marin's affinity is with Sonoma and the North Coast -- a generally rural setting and life style and one which is the reason many of the current residents moved to Marin. Our residents should not have to put up with political hacks who care only for their own future reelection, while ignoring the welfare of the very communities they purport to wish to serve.
