Conversation: redistricts

Dear People,

I write to ask you to clearly separate Marin Sonoma from San Francisco. Our two suburban/semi rural/open space counties share many cultural and economic interests and have almost nothing in common with the city, which seems to fade into big city union dominated economic failures and corruption as each year goes by.

While I rarely agree with our local elected officials, they are at least responsive and put up a reasonable appearance of listening to voter input. People like Leno from SF could not care less about Marin....his money and support are rooted in the gay crowd in SF and that's about all he considers in his legislative agenda.

We have families, business and education to consider and we need local representation please.

Thank you,

Richard P Willis
