**Conversation:** Marin County Re Districting

Hi,

I would like to urge the commission to consider that Marin is so heavily Democrat, that there needs to be a fair balance of district lines. I vote in ALL elections and I feel that my vote is just an exercise. Marin is so heavily tilted to the Democrats that my vote basically doesn't count. I hope you will consider these comments when you re-draw the districts. They need to represent a more equal reflection of voters. This will also improve the Legislature as a more balanced view in Sacramento will break the grid lock we have, that's been going on for many years.

Respectfully,

John Armanini
