Dear Members of the Commission,

Please pair Napa with rural areas such as Sonoma, Lake, Yolo and Mendicino counties. Urban areas have different problems and they don't understand our problems.

Please keep the districts contiguous. districts like ours where part of the district is Davis and only connected by the width of I 80 are terrible.

Please remember natural obstacles such as the coast range which would make an east west district north of Ukiah a nightmare. It is no accident that our main freeways 101 and 5 are north south. It is a realistic understanding of how people can conveniently travel.

Thank you for your work. Marjorie Preston
