Conversation: senator fran pavley / redistricting willow glen

May 19,2011

To whom it may concern,

My parents purchased our home in 1957 at [REDACTED]. when the other side of [REDACTED] was still all orchard. I can remember my brother being shot with rock salt by old Mrs. Nola. (Nola Dr.) and all of our neighbors who have come and gone.

The thought of redistricting our neighborhoods should not be done at all !!!! Why should the value of our homes suffer in the future so someone can get elected. How ridiculous ! Would you, the council people like your home to lose its value because of this ? I don't think so. I bet if it was one of you someone would find a way around it.

If this is how you care for our residents I guarantee whoever is responsible will not get re-elected anyway. Willow Glen is a very tight nit community.

Furthermore, if redistricting is needed then you need to redistrict the outskirts neighborhoods who came after the original neighborhoods go back and look at the maps from the 60's and then go from there but Don't think that those of us that have been here for more that 50 years will stand for this kind of injustice.
