Conversation: Citizen input

My input is that the town of Atherton should be in the same district as Menlo Park, Stanford and Palo Alto.

If this input can be taken and given credence via email, there is no need for me to come to a meeting and say this. If on the other hand, it is important that I come to a meeting and speak exactly these words, then please register me for the San Jose Mtg on Monday and send me a confirmation email.

Thank you,
Mark Cummings
