Dear Committee,

Please do not put the North Coast with the North Valley!!!! Because of our coastal interests, industry, and culture, we have very little in common with the districts on the other side of the coastal range. We are a much better fit with Del Norte, Mendocino and Marin. Our young, but important wine and beer industries fit better with Sonoma and Napa Counties. For our representatives to travel across the Coastal range is much more difficult than traveling down Hwy 101 and though both are difficult in the winter, Hwy 101 is the safest and our representatives need to travel up to see and communicate with us in the winter as well as the summer.

Please have mercy on us, we will be unfairly represented if we are lumped with the North Valley.

Thank you for your consideration,

Pam Cahill,
