**To:**[REDACTED]

As vice president of the Humboldt Fisherman's Marketing Association, which represents more than 150 commercial fishermen, I wish to register our concern that the 1st Congressional District remain contiguous along the north coast from Bodega Bay to Crescent City. As fishermen we share the same concerns that our coastal communities be represented effectively. Our fishing interests for maintaining healthy fish populations and habitat along with maintaining our economic infrastructure are shared by all of these coastal communities.

Please do not chop up this natural boarder along the Pacific Ocean such that we lose our ability to be represented effectively.

Thank-you.

Kevin Collins  
Vice President  
Humboldt Fishermen's Marketing Association
