

Region 9 - Mendocino County

Citizens Redistricting Commission,
1130 K Street, Suite 101,
Sacramento, CA 95814

I am a resident of Mendocino County. I recognize that the Commission will be determining Congressional lines as well as Assembly and State Senate.

The fact that our Congressional, Assembly and State Senate districts are similar has made it possible for us to have better input on all the issues of commonality, uniting us in matters of political interest and environmental protection. Changing the district boundaries from the historical north-south to east-west will change traditional networks and common interests that have developed over many years. We do not have the same issues as the central areas and have much more in common with coastal communities.

Please take into consideration natural transportation and coastal concerns and leave the North Coast counties in the same Senate, Assembly and Congressional districts.

Thank you for your consideration,
H. Michael Laybourn,
Hopland CA 95449
