Redistricting Commission:

This email is to introduce myself and ask you to take some time to review the attached information. This information was compiled in 2008 to define our communities in [Placer County](#) at a level to include our children's education through their high school graduation.

My name is Margie Spalding. I have lived in the Auburn Community in [Placer County](#) since 1950 and have seen many changes take place here though the years. The saddest and greatest change has been the decline of our sense of community.

The attached information was compiled using data provided by the [Placer County Elections Department](#) and through [California Department of Education web site](#).

Please find attached pdf files:

- [Placer County Governance Chart \(enlarged version and reduced version\)](#) showing the number of voters in Assembly and Senate districts, County Supervisor areas, cities, school districts and special districts in Placer County in relation to communities. These communities are defined by [elementary school districts](#) and the high school they matriculate into. The first three columns listed as "Undefined" show voters who live in precincts in Placer County, but are served by school district in boarding counties. You can also link to this chart which is posted on the [League of Women Voters](#) of Placer County web site under "Know Your Community" - <http://www.lwvplacercounty.org/files/knowcommunityjan2010.pdf>  
<<http://www.lwvplacercounty.org/files/knowcommunityjan2010.pdf>> .

- [Placer CountResource Spreadsheet y Governance Chart](#) showing

the further division of communities such as small districts split between multiple Senate and Assembly districts and even Supervisor areas.

I hope you will take time to review this information. Please contact me if you would like more information on the process in developing this information and to answer questions.

Thank you for your time.

Sincerely,

Margie Spalding

Work in Progress—Voter registration figures represent a snapshot taken in February 2008

Note: All figures are derived by school districts located out of the county lines.

School enrollments are taken from the 2008-2009 school year
