Conversation: Congressional Districts

Dear California Citizens Redistricting Commission:

I am an elected member of the American River Flood Control District (ARFCD) and sit as a Board member of the regional Sacramento Area Flood Control Agency (SAFCA).

I believe that the City of Sacramento should remain in one Congressional District. As a life-long resident of Sacramento and long time resident of the City of Sacramento, I know that the "communities of interest" for not only flood protection, but several other important issues, all live with the City of Sacramento. This is why it is important that Sacramento be represented by one Congressional member.

Receiving federal authorizations and appropriations for flood protection are difficult enough, but creating two Congressional districts would make our tasks significantly more difficult and complex.

Thank you for the time you are giving to this important endeavor.
