Citizens Redistricting Commission,

We are both registered voters and residents of Siskiyou County. We are deeply concerned about this Redistricting.

The problems that we have in Siskiyou, along I-5, are totally different than those on the coast. Keep our Communities with the same or similar problems together. Keep our district as it is, similar to the Judges ruling in 1990. We do not want any manipulation of our territory.

We want to keep the Representative area we now have. The people we elect know what is going on such as: Logging which has been curtailed; mining has been stopped; the NGOs making the Salmon more important than "We The People;" Farmers and ranchers are being "attacked" because they need water to grow foods which we all consume, and on and on. We do not need nor want our problems lumped in with other differing problems.

If we become redistricted our representation will be quite limited and we do **not** want that diminished!

SO, **NO REDISTRICTING!**

Most Sincerely, Nita Still and Son Keith Irving.
