Conversation: Redistricting Our Area of the State!

Hi Sirs and Madams: I have been a resident of Siskiyou County California for Forty Seven Years and I see you want to Redistrict our area with the Coast Area of the State and I believe you are making a big mistake for our area in doing this as we have nothing in common with that area of the State which is the Tourist Industry. When you look at Siskiyou County we have more in common with the folks in the Sacramento Valley which are Agriculture, Timber, and Mining Industries and we need this to Survive in our Area and you are cutting Our way of Live to exist. We are Exporting our youth and importing retired People which is effecting our lively hood. We don't need the coast to represent us as they don't have anything in common with us and if you do redistrict us please do it with Modoc and Lassen Counties which have more in common with us which are Agriculture, Timber, and Mining like the Sacramento Valley Area. We need our youth to keep our area in Existence here and now like it was in the old days! Please don't be the downfall of our way of life here in Siskiyou and Modoc Counties California as in my youth I was a resident of Modoc County for 18 Years! Thank you for your time! Sincerely Yours: Lawrence A. Bell [REDACTED] Dr. Mount Shasta California
