Sacramento, CA 95814

We are registered voters living in rural Siskiyou County and are concerned that due to the recent census that our County may be put into the coastal district. As a fourth generation owner and operator of a cattle ranch we are concerned that Siskiyou County which is primarily an agricultural area will be lumped into the coastal region that does not serve the same interests as Siskiyou County. Our water, timber and economic interests will be severely underrepresented if such redistricting is allowed to go forward.

We urge you to carefully consider our concerns and allow Siskiyou County to remain with like agricultural areas, as it is now.

We would appreciate a response regarding our concerns.

Respectively Submitted,

Don and Sheila Meamber
