To: <[REDACTED]>

Dear Commissioners,

I am writing to communicate my view that Congressional District #1 should keep Yolo, Solano, Lake, Napa, Sonoma, Mendocino, Humboldt, and Del Norte Counties within it's borders. There are three community of interest issues that are particularly compelling:

1. the wine grape growing, wine production, marketing and support industries, and wine industry education and research (UC Davis).
2. overlapping regional watershed issues that need consistent and coordinated attention and representation.
3. the general agricultural and natural resources centered economy of this region.

Thank you for considering my input on this issue.

Subject: Representation of Yolo County in Districts

From: Don Morrill <[REDACTED]>

Date: Mon, 23 May 2011 12:27:46 -0700

To: [REDACTED]

Dear Folks,

I'm writing to strongly urge the consideration of the importance and compatiblitiy of Napa and Lake Counties to Yolo County from the standpoint of watershed and economics.

Watersheds of Putah and Cache Creek are obvious connections we have, particularly since the mutual agricultural economic base upon which we rely is dependent on those sources. In addition, the presence of the growing and vital Viticulture Department at UCD facilitates an intellectual and scientific link among the three Counties.

In summary it makes complete sense to link them politically in any District both at the state or federal level.

Thank you for considering this request.

Sincerely,

Don Morrill

Subject: Public Comment: Yolo County and redistricting

Subject: Yolo County and redistricting

Message Body:

I would like to encourage you to keep Yolo County with the current neighboring counties to its west. Yolo County has many connections with Lake and Napa Counties. Agricultural matters, especially viticulture, make these three counties natural allies. The presence of UC Davis in Yolo County with its strong viticulture and enology programs makes the connection even stronger. Another tie that binds Yolo County to the west is the Cache Creek watershed. I've served for a number of years on the Yolo County Flood Control and Water Conservation District and know well that issues of water rights and environment protection link us to Lake County. Please keep these facts in mind as you consider redistricting. Thank you, Ann Brice
