Chino Hills Redistricting Comments

- We are strongly opposed to the draft Congressional District map. As currently proposed, the Draft Map places the northerly portion of Chino Hills and one small neighborhood in the City of Chino in the East San Gabriel / Diamond Bar District, a Los Angeles County district that extends west to Rowland Heights and north to Arcadia. Chino Hills shares no community interests with this Los Angeles County District, differing along all major lines, including regional issues, socioeconomics, and race/ethnicity.
- The Draft Map also places the southerly portion of Chino Hills in the Ontario / Pomona District, a predominantly San Bernardino County District that extends east to Chino and north to Rancho Cucamonga. We request that all of Chino Hills, and the isolated Chino neighborhood, be placed in this District.
- This request is based on our strong community of interest with these neighboring San Bernardino County cities. Maintaining our ties to this community of interest is vital to the welfare of our citizens and **meets your own criteria to respect counties, cities, communities of interest, and neighborhoods of interest, and eliminates next-door-neighbors that would be relegated to different Districts.**

06.18.11.BL

We have previously presented these concerns to the Commission. Again, we request that all of Chino Hills be placed in a single District and that this District be the Ontario / Pomona District, which is shared by Chino and our neighboring west-end San Bernardino County cities.

We believe that Congressional balance can be achieved by removing Pomona, a Los Angeles County city, from the Ontario / Pomona District and leaving the entire City of Chino Hills in that District, then placing Pomona in the East San Gabriel Valley / Diamond Bar District.

The City of Chino Hills respectfully requests due consideration of our recommendation.

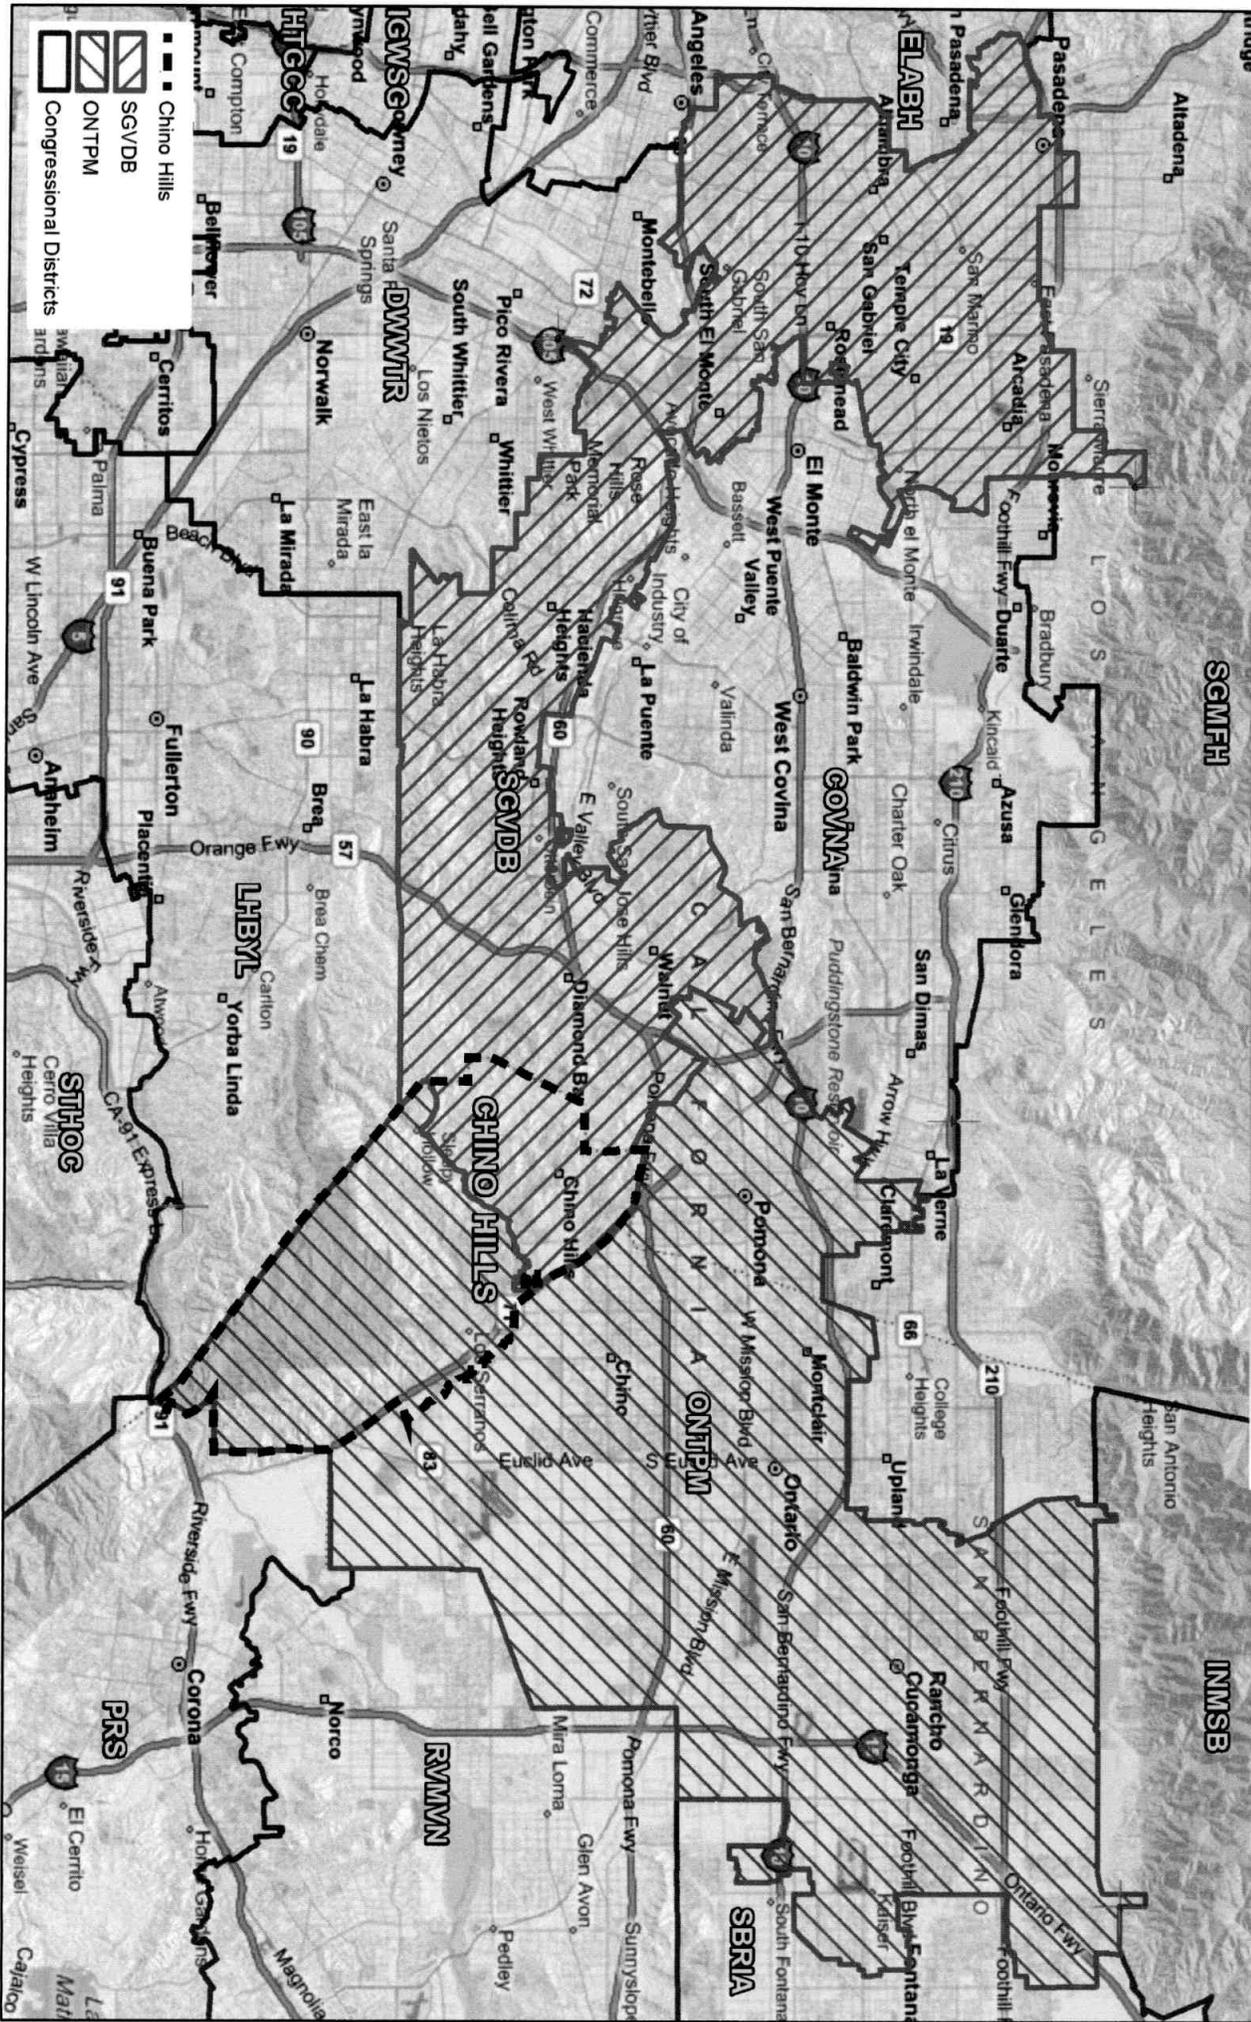

Sincerely,

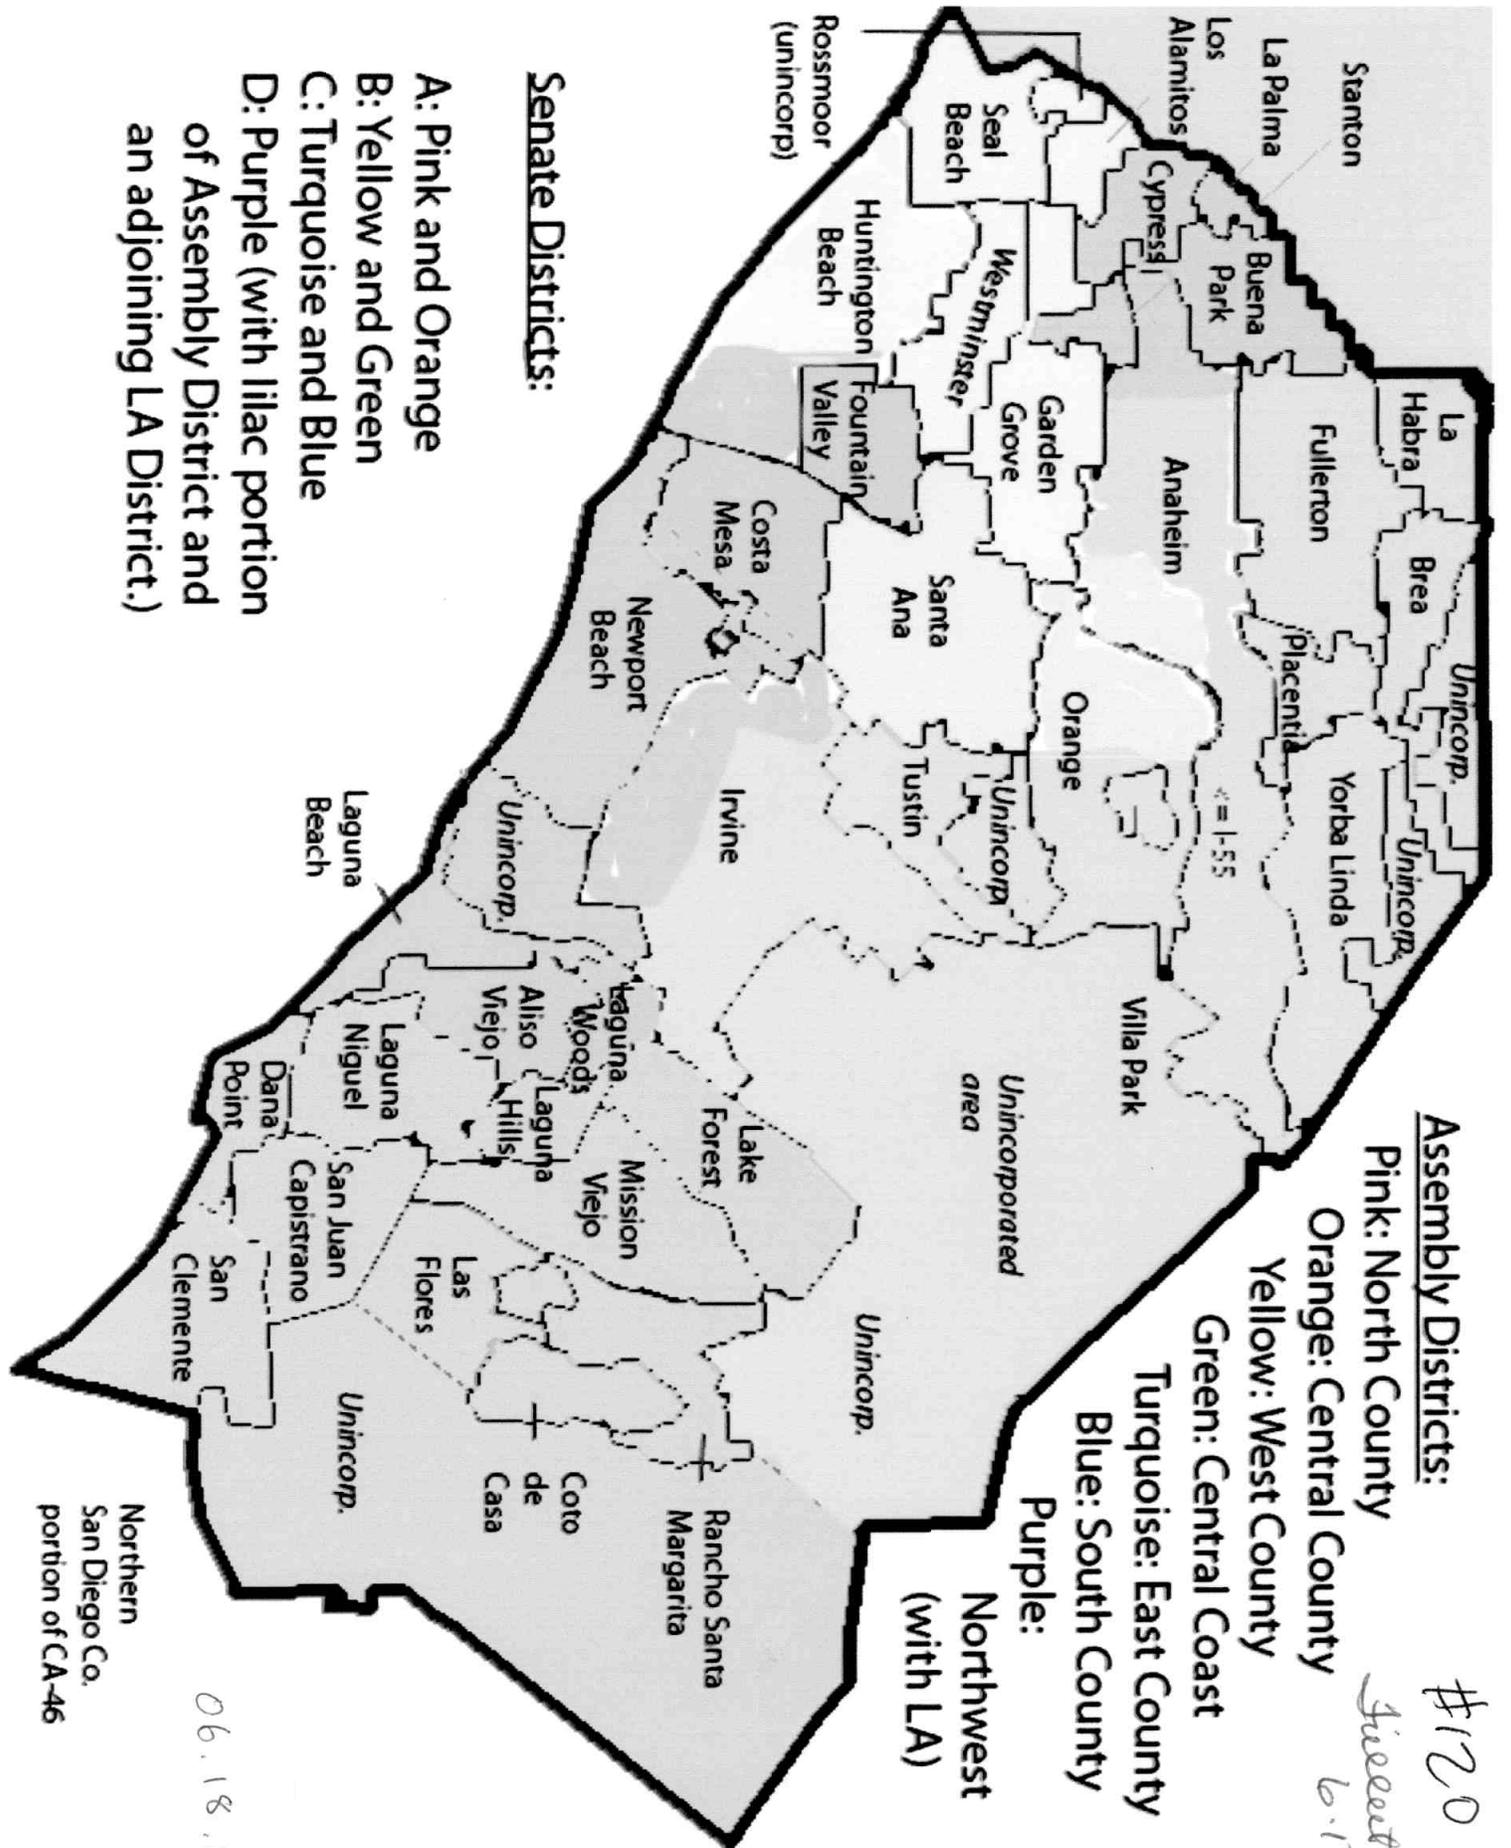

CITY OF CHINO HILLS

Fullerton #132

6-18

General talking points:

- After review of the Congressional, Senate, and Assembly maps I disagree with the proposed maps because the southern and western part of Anaheim have more in common with the city of Santa Ana than the city of Orange
- After review of the Congressional, Senate, and Assembly maps I disagree with the proposed maps because Orange has more in common with Anaheim Hills than it does with Santa Ana
- After review of the proposed assembly maps I disagree because Anaheim hills has more in common with Yorba Linda than it does the with other Anafull map

Labor Talking Points

- I live in the flatlands of Anaheim and I have more in common with Santa Ana and Garden Grove, than I do Anaheim Hills.
- The neighborhood that I live in is primarily working class, and we need to be able to elect representatives that are candidates of choice.
- I have reviewed the proposed maps and I see that the commission is diluting the working class vote by:
 - Separating the flatlands of Anaheim from Santa Ana
 - Adding cities west of Harbor to the Senate and Congressional districts.
- I live in Santa Ana/Anaheim and I go shopping within _____ I do not go to Anaheim Hills/Orange/Brea.
- Poverty in OC is concentrated in the central part of OC, which is Santa Ana and Anaheim, we need representatives that will address our issues and effect change. The current proposed districts dilute our vote and voices.

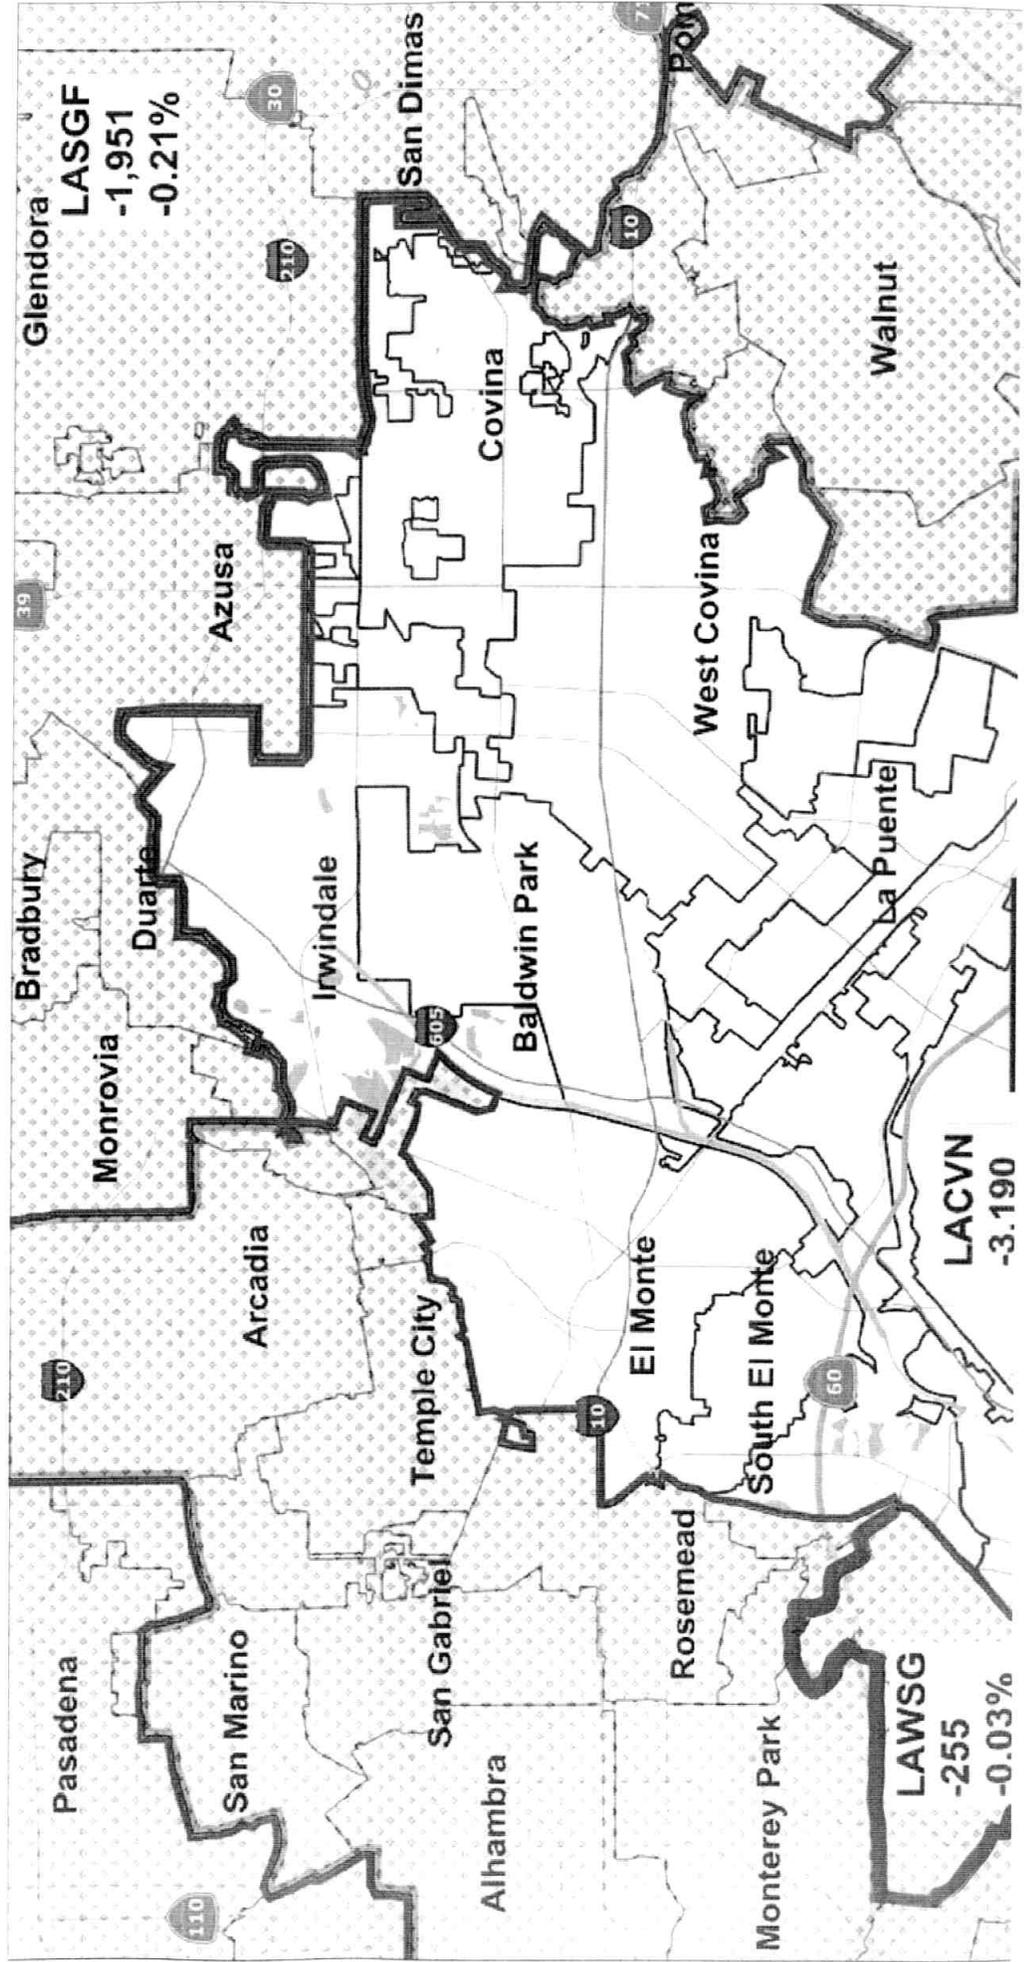

Poverty talking Points:

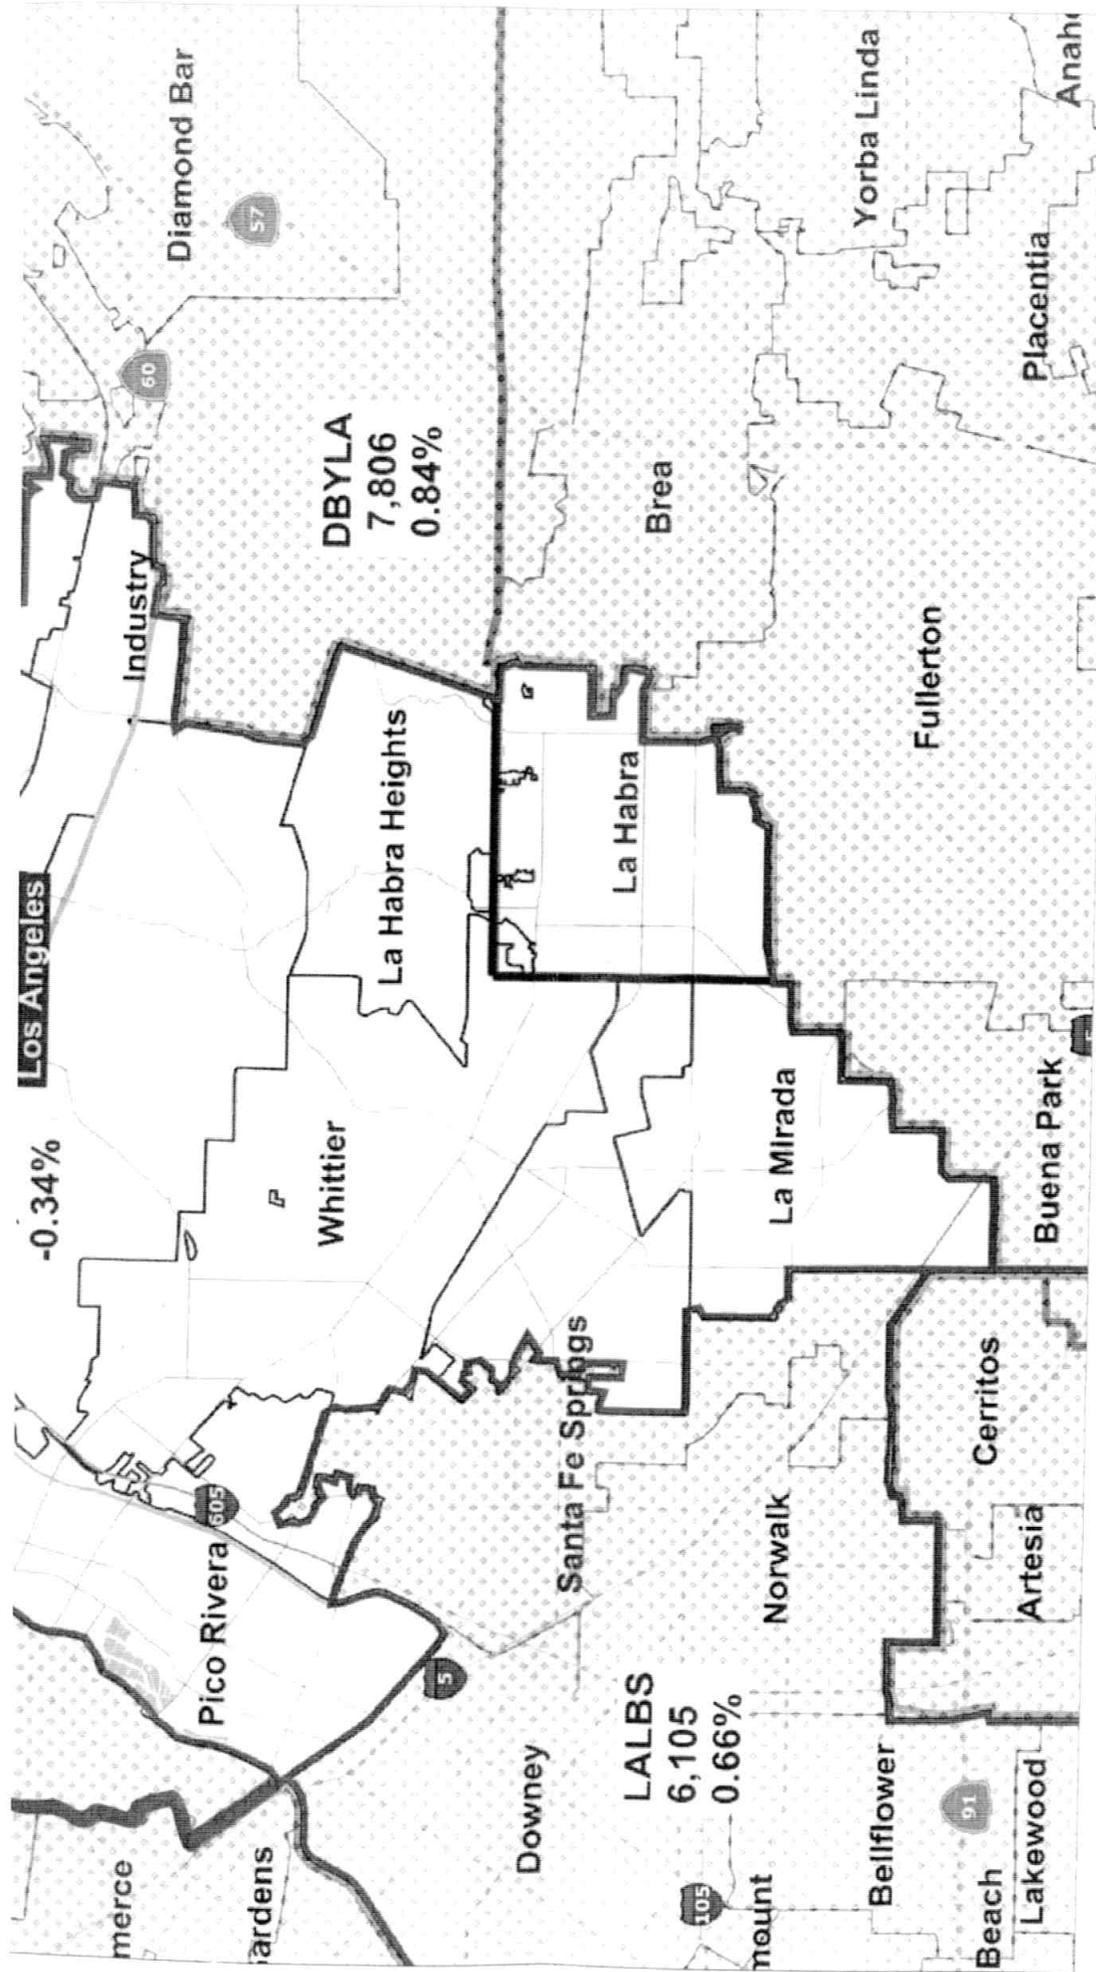

- Santa Ana and the flatlands of Anaheim have seen a much higher percentage of Bankruptcies and Foreclosures than most cities in Orange County. (HealthyCity.org)
- Santa Ana and the flatlands of Anaheim have a much higher enrolment of people in the Healthy Families program, Food Stamps and CalWORKS (OC Workforce Investment Board)
- Median Incomes of people in Santa Ana and the flatlands of Anaheim are much lower than other cities within Orange County.
- The Unemployment rate is much higher in Santa Ana and the flatlands of Anaheim than other cities within Orange County.
