Subject: Great job

Message Body:

I lived in the riverside area for over 40 years. In Riverside for 35 and Temecula for 9. I taught U.S. Government to high school students AND junior college students. Two words---GREAT JOB. Finally some logical redistricting for the state. The first step to make California #1 again.

Subject: Suggestion for Redistricting Maps

I really appreciate being able to see how the districts' boundaries would change from a county overview and the new dynamics these will mean for California and national politics. Would it be possible to issue a list of 9-digit ZIP Codes that will be in the revised districts?

Perhaps my situation is too minor a difficulty for the mapping project, but I cannot tell into which new boundaries I will be. For years, living in Southwest Riverside County's unincorporated area, I had to verify and then inform the Congressional representatives which one represents us. In specific, my ZIP Code is 92562 which, depending on the next four digits, meant I could be represented either by Mary Bono Clark in the 45th or by Darrell Issa in the 49th. Based on the Riverside County Registrar's listing of ZIP Codes, the full ZIP Code for my address is 92562-2317, which puts me in District 49.

Because of the current map orientation by county and city, I think I will be in the PRS, but I would like more precision.

Yours truly.

Peter S. Millington
