I think the redistricting map has the look of favoritism for one party over another. When you start taking away from one group of voters in favor of another it smells. The Desert areas want and needs their own Representative, not someone from the heavy populated areas. This probable can't be done by your guideline, but what is wrong with taking a map of California and just putting a even grid over it.

Thanks for trying

Jim, a voter in the High Desert

Dear Redistricting Commission Members,

I am writing to urge you to keep the city of San Bernardino as one unit in redistricting process. Dividing a city, causes divisions within the city and ultimately results in conflicts. Please keep the city of San Bernardino whole.

Sincerely,

Valerie Lichtman, [REDACTED] San Bernardino, CA 92404

Dear Citizens Redistricting Commission:

Thank you for your work on re-aligning our communities into districts that are more connected and community oriented. As a resident of Chino, and one with a deep connection to the San Gabriel Mountains, I would ask that you consider one change. I am asking for redistricting to place federal public lands in the San Gabriel Mountains in the same Congressional districts as communities to their south. For as long as i can rememeber, the San Gabriel Mountians have been a repite for me from the crowded, busy life of Southern California. Many of my friends in neighboring cities, including Ontario and Rancho Cucamonga, hike and do restoration work in these mountains.

It does not make snese to me for one little section of the San Gabriel Mountains to be in the same Congressional district as Mono and Inyo Counties rather than the same district as Rancho Cucamonga and other cities in the proposed Ontario district - all with similar geographic, economic and recreational connections to these mountains. Linking this section of the San Gabriels within the Ontario district makes management - and community - sense. Simply extend the proposed Ontario Congressional District north from Rancho Cucamonga to include that section of the San Gabriel Mountains that fall within the San Bernardino National Forest. The boundaries would then be the LA County line on the west, the national forest boundary on the north and I-15 on the west.

Please put the San Gabriel Mountains north of Rancho Cucmonga in the same Congressional District as the communities (Including Rancho Cucamonga) direclty connected,to these mountains.

Sincerely,

--

Mary Ann Ruiz

**Subject:** Redistricting in the SB Mtns.

**From:** Bruce fertig [REDACTED]

**Date:** Sun, 26 Jun 2011 17:13:02 -0600

**To:** <votersfirstact@crc.ca.gov>

We believe very strongly that the SB Mtns. from Crestline to Big Bear be included in the same districts.  
we are OK with any combination with any "flat Land" communities as long as the Mtn. are kept together.

Yours truly,

Bruce & Carol Fertig

Subject: Opposition

Message Body:

I am very displeased with the California Redistricting Commission's maps which split Redlands into two Congressional districts. Half of Redlands is in an absurdly large district and no longer united with Loma Linda and Highland (among others). These are our communities of interest and have historically been represented by one Congress member. We need and deserve to have one Congress member representing our city and its long-time neighbors.

Cynthia Andrews
