I am shocked to see that the commission cut Lompoc in half for our "new" district. How are we supposed to have any decent representation when people will be completely confused as to who represents them? Buellton, Solvang and Santa Ynez are all closer to Santa Barbara than Lompoc is. More people commute to Santa Barbara than to Santa Maria from these three communities. It would make more sense to put them with Santa Barbara and keep Lompoc intact. That someone wants to cut Lompoc's power within the county is not new. Lompoc is the step-child of Santa Barbara county. This is just another way for politicians in Santa Barbara county to cut Lompoc's influence. Please rectify this mistake and keep Lompoc citizens in an intact district. Thank you,
Cathy Gregory
