Dear Commissioners,

After reading the Ventura County Star's article regarding redistricting, I want to make my comments heard. It is imperative that you include cities that share many commonalities together within the same district. That is why I would like for you to include Moorpark, Simi Valley, Thousand Oaks, and Santa Clarita together within the same senate district. The residents of these cities have so much in common that it would be a mistake to separate these cities. Thank you for your time and attention to this matter.

Sincerely,

--

Gentlemen:

Please keep our Ventura County in tact. We do not have the same concerns as Los Angeles or San Fernando Valley. Ours is a diverse county and we need to be represented in our congressional district.

I just read the Ventura County Star's article written by Tim Herdt regarding what cities you are including together in Ventura county, and I was upset to read that you are thinking about splitting Thousand Oaks into two separate districts. Please consider including Simi Valley, Moorpark, Santa clarita, together with Thousand Oaks. This is the best possible solution and it would benefit the residents immensely. Thank you for your time and I urge you to take my thoughts and comments into serious consideration.

Thank you,
Susan D. Tanner

Dear Commissioners,

Regarding redistricting, I want to make my comments heard. Complying with the voters wishes that you include cities that share many commonalities together within the same district is what the proposition directed. That is why I would like for you to include Moorpark, Simi Valley, Thousand Oaks, and Santa Clarita together within the same senate district. As a 40 year resident of Thousand Oaks, and Ventura County, I know for sure that the residents of the other three cities mentioned above share characteristics much more closely with TO than those from West Ventura County, or the West San Fernando Valley. It would be a mistake to separate any of those four cities. If the description of the proposal as published today in the Star is correct and allowed to go forward, Simi or TO will be removed from the group. If either West County appendage is then added, it would be extremely obvious to me that political considerations rather than neighborhood homogeneity ruled the day, !

and that the "independents" on your committee are anything but independent. Thank you for your time and attention to this matter.

Sincerely,

--

Redistricting Commissioners,

Within Tim Herdt's article, you called for more public input regarding the lines in Ventura County. I am writing to provide you with more feedback. I urge you to not separate Thousand Oaks into two different districts. It is in the best interest of the residents and community to include Thousand Oaks with Simi Valley, Moorpark, Camarillo and Santa Clarita. The residents of each of these cities share so many of the same views that it would be a mistake to separate these cities. Our cities work together on many topics such as transportation and watershed issues. I urge you to listen to the many comments and the comments of other residents of eastern Ventura County regarding this matter along with the representatives of these cities who have spoken at redistricting meetings. I know that the City of Thousand Oaks and also the Mayor of Camarillo asked that our cities be kept together as we share so many of the same issues.

Thank you,

Daryl Reynolds

Thousand Oaks Planning Commissioner
