Subject: Ventura County re-districting

The Democrats have not been able to dislodge Rep. Gallegly in election after election, so now they propose to simply gerrymander the county according to Chairman Aguirre's personal pro-left bias. Those of us that live in or near Santa Paula expected this result. This should not occur. It goes hand in hand with Gov. Brown's recent statement that if the Republicans do not cooperate with the Democrats' state budget plan, he (Brown) will do everything in his power to totally eliminate the Republican Party from California. So much for "democracy".
