Ms. Westa-Lusk,

We were unable to duplicate the issue you reported. If you continue to experience trouble, please copy and paste the link to the specific map into the body of your email and send it to us.

Publishing decisions are made by individual newspapers. The 1st draft maps, including geospatial mapping information, is available on our website for public access and several papers have published them in part or in whole.

You can view recent news articles that mention the Commission by following this link:

Subject: Cannot view maps-errors on page keep popping up

Message Body:

Can you please look into the following lines 261, 258 and 278 they keep coming up as errors on the page and my computer won't access the "maps" .

I have been able to view all the other links to your website. How else can I view the maps?

Why aren't they published in the newspapers?

Over the weekend I tried using another browser on my computer to access the maps.

Using another browser worked and I was able to view all the maps I needed to look at.

The "INTERNET EXPLORER" browser was the one browser that wouldn't allow me to access the maps.

Is anyone else having problems accessing the maps using the "Internet Explorer" browser?

Thank you for replying to my email.

Sincerely,

Renee Westa-Lusk
