We support the new maps. It only makes sense to have Tuolumne, Calaveras and Amador in the same group...we are neighbors with many of the same concerns.

Thank you,

Subject: Redistricting in Sierra Foothills

As a resident of Sonora, I fully support the redistricting plan to include the foothill counties into a single district, separate and distinct from the valley communities. The needs in the foothill residents have much more in common with each other than with those in the valley. This redistricting plan makes a lot of good sense. Thank-you for your work.

Dear Commission Members:

We are excited about the new redistricting lines that combine Amador, Calaveras and Tuolumne counties into one district minus the Valley. Now we will be able to have a say in what we think is best for our area without the conflicting interests of an area that is entirely different. Thank you! Peggy Kingman, Sonora, CA

Please receive my total support for the redistricting proposal. We, here in the foothills, want to have more influence over what happens in our area and stop being co-mingled with the Valley communities. Our needs and aspirations are different and should be addressed with regard to our particular circumstances.

Sincerely,

Janet Maffei, Tuolumne County resident
