Subject: Good Job

Message Body:

I live in Mountain View and have looked at the Assembly, Senate and Congressional Districts.

They all look good to me. I appreciate that they seem to be compact in shape.

I was sure that a Citizen's group would do a good job, and now you have!

Subject: Spectacular Job

Message Body:

I would like to commend the commissioners for the exceptional job you have done in your draft 1 maps. It appears that you have resisted the many partisan pressures that were put on you. Instead you have followed your constitutional mandate to draw compact districts that follow natural and political boundaries.

In the weeks that come I'm sure you will find reason to adjust the boundaries slightly for one reason or another. If you remain true to the process that has brought you to this point then I am sure the citizens of California will be well served.

I encourage you to carefully consider the criticisms of the citizens, but do not be discouraged by those who rant without reason.

I am very proud of the work you have done so far. Keep up the good work.

Best Regards,  
Jim Schrempp

Redistricting Commission Members,

I would like to congratulate the commission on drawing much better looking districts for Santa Clara County. It is nice to see a clean looking districts instead of the gerrymandering monstrosities that have been produced by the state legislature.

Craig D. England, Ph.D.
