### Redistricting Commissioners:

I am a member of My Liberty/San Mateo. We are a nonpartisan group with one goal. We want to promote a fair and honest government; from City Hall to Washington D.C.. And we realize that creating fair voting districts would be the beginning. Our organization's request of the Commission, that you make the districts contiguous, within 3% in population of each other, and too only use County Lines, City Limits, and US Postal Zip Codes as boundaries of each district. We have drawn up some districts using the website of [www.wedrawca.org](http://www.wedrawca.org) Hoping the website is correct with its population these are pretty close. We do not expect you to use our districts verbatim but they show that you can create districts using our guide lines, it is possible to make fair and equal districts. As we stated in our email, we wish to have the Commission create a level playing field; to use a sporting analogy. In sports all that players ask is that the rules apply to everyone, without discriminating against any one individual or group of individuals. Please get this right, we Californians will have to live with your decision. Thanking you in advance for your assistance and fairness.

Respectfully,

  
Robert W. Heagy Jr.

RE: "Community of Interest"

Dear Commissioners:

On behalf of the Town of Los Gatos Council, I am writing to ask that the Commission designate the cities of Los Gatos, Monte Sereno, Saratoga, Campbell, and Cupertino (know regionally as the "West Valley Cities") be considered a "Community of Interest" and that the West Valley municipalities be kept whole individually and together in the creation of legislative districts. This request is made in recognition of the following:

- Mutual boundaries
- Shared key natural geographic features
- Common transportation network
- Shared resident service delivery
- Served by overlapping public school districts
- Shared and coordinated governance

The attached Town Council adopted resolution provides additional detail. If you have any questions or comments, I can be reached at [REDACTED]

Sincerely,

**JOE PIRZYNSKI**
