I tried to fill in the feedback form online (about the maps) but it is MISSING a REQUIRED field (about the region and county).

As a resident of Menlo Park and San Mateo County, I don't understand the CA congressional map. It seems to carve out our town from mid-peninsula communities with which we have great affinity (e.g., Palo Alto, Stanford, Atherton, Portola Valley) and lumped us with communities we don't (e.g., San Carlos, Daly City, South San Francisco, Half Moon Bay). The other maps seems to make sense but not this one.

Patti Fry
