Subject: Menlo Park

Message Body:

I hear my city is being divided between two congressional districts! How bad an idea is that!

Subject: Why?

Message Body:

Yours is not an easy task.

Every community in California deserves to sit inside of a district and not straddle a line. When lines split a town or school district the smaller portions are forgotten.

It is easy to identify communities that need better representation and they all have a history of being divided up every time this process takes place.

Let's try a little harder to keep small towns and school districts in one piece or at least make the pieces large enough to matter to the elected official.
