Subject: California redistricting for Delnorte county.

To whom it may concern,

I wish to urge acceptance for the first draft map Delnorte County. I believe that the county belongs in the coastal district that under the draft map will extend along the coast from the Oregon county line down to Santa Rosa. We are a fishing community with, until this tsunami, had the most productive fishing harbor on the North Coast. I believe that the coastal, recreational, and fishing interests will be well served with Delnorte County aligned with the other coastal counties.

Thank you
