Message Body:

Del Norte county was placed into the current Senatorial district with Agricultural representation during the last redistricting process. Our county has a coastal location, however the main issues for us are more in line with the Agricultural and forestry issues that are faced everyday with our current state Senator. We would really like to keep our current representation. Please consider keeping Del Norte county in the Senatorial district represented by Doug LaMalfa. The redistricting of the US representative removes Mike Thompson from representing us. He has an Agricultural background and has invested alot of time here. Please do not change our representation at the congressional level. This is a small county with very few votes. We have invested alot of time and energy into teaching the current representation on our issues. When our reps are changed, we will have to start from square one in teaching them about our issues. This county leans to the right in their v!

oting history. When redistricted to having representation that is not Agricultural or leans heavily to the left, we will not be represented FAIRLY!!!!!!!!!!!!!!

Rob Miller President DN County Farm Bureau

Message Body:

Please consider drawing the lines West to East. The lower populace coastal counties in not an accurate representation of Del Norte County. Del Norte is rural and agricultural County with conservative interests.

As a member of the Agriculture community I ask you to re-evaluate and redraw the lines West to East.

Thank,  
Linda Crockett
