Would you look at a map, yea you see the coast line, now, do you see where Shasta, Siskiyou, and Lassen Counties are. Would one of you genius's please show me a Coast Line in Shasta, Siskiyou or Lassen Counties.

Good, I didn't think so.

So why in the world would you group these counties with Coastal Counties when we have no Coast Line.

Just one reason to leave things alone.

Or maybe you think that by grouping Shasta, Siskiyou and Lassen Counties ( very heavily populated by Conservative Minded folk ) with Coastal Counties Humboldt, Del Norte and Mendocino (Heavily populated with Liberal Minded People) will help to scew the demographics in favor of the Liberal Minded Democrats.

Its time to stop the BS and get to work to figure out how to create some common ground to work from.

You want to Increase Taxes and Decrease Income, where is the common sense there, You decrease Pay so you have to increase taxes to make up the difference, Oh yea that is genius.

You want to Decrease Retirement, and Do away with Social Security, not to mention increase the Taxes on individual retirement programs, IRA's etc. and

Tax a persons SAVINGS for retirement.. What the Hell are you people thinking.

I suppose next week you will want every working member of the American Middle Class to write two checks, One to the IRS for 50% of thier income and a second Check to the Franchise Tax board for the remaining 50%. There you go a balanced budget, with a built in surplus,(that even OBAMA and MOONBEAM Brown could squander), you effectively create a Socialist Country where ONLY the UPPER CLASS has any take home pay, and the Middle and Lower Classes live on the Dole. Boy now that is progress, or is it. Thats the way it was in the Dark Ages. ONLY the UPPER Class had Income. And the rest lived outside the Castle walls surviving on the Beg Borrow and Steal System.
