Subject: Redistricting

Message Body:

Your final redistricting is everything we asked you to change. You have completely and totally failed the people of California. Thanks for more of the same incompetence we, The People, have come to expect from Sacramento!!

Politicians Give Me Turrets!!!

Subject: Congressman Jerry Lewis moving out of the High Desert

Message Body:

Redistricting Commission

I am concerned about Congressman Lewis being moved out of the Apple Valley, Hesperia area. I have been working with Congressman Lewis for many years on many Disability cases that needed to be contested and rather than the people having to hire an Attorney at the cost of around \$1200. With me helping the people it is free of charge and therefore they get their disability that they deserve and don't have to pay any Attorney any money because with the help of Congressman Lewis' staff both in Redlands and Washington D.C.. They are given their deserved disability with the help of Congressman Lewis' Staff. I think it would be an injustice if you remove this area from Congressman Lewis. I hope that you reevaluate this redistricting and leave this area with Congressman Lewis as he is down to earth and so involved with this area that we would lose a very dedicated representative and this area would suffer from that change.

I hope you can work this out to leave Congressman Lewis as our representative for the support of this area in so many ways.

Thank You

Eugene H. Doucett

Subject: Lines

Message Body:

Awsome!

DO NOT change any lines.

Don't be "bullied" by political hacks wanting to retained their ill gotten seats 10 years past.

The Commission has simply drew lines as they should have been in 2000.

Great Job.

Thank you,

Gene Hinds

Subject: Redistricting Upland and Rancho Cucamonga

Message Body:

Upland and Rancho Cucamonga must remain together as communities as neither city has anything in common with the cities of Claremont, Montclair and LaVerne to the west much less the city of Pasadena. The citizens of Upland and Rancho Cucamonga work within the boundaries of San Bernardino and shop within the region of San Bernardino and Riverside Counties.

Los Angeles is about as foreign to these communities (Upland and Rancho Cucamonga) as is Sacramento.

As anchor communities in the region, the idea of splitting them between state legislative districts will be disastrous to the communities' ability to stay on the radar of legislators and compete evenly for resources highly sought after by neighboring power house communities.

By placing a partial section of Rancho Cucamonga and Upland in a district that stretches out to Pasadena will ensure that this community will be completely disregarded by its representation and in so it doing effectively dilutes our well knit community voice.

Please do not split up Rancho Cucamonga and Upland; our communities' ability to function as a whole has been a wellspring of support for San Bernardino County which will be completely undermined by the commissions current maps.
