Subject: Huntington Beach split in half

Message Body:

Hi,

I just wanted to take a minute and voice my opinion on the redistricting of Huntington Beach. We are a conservative city. We don't want to be grouped with Long Beach or Westminster. I see NO reason to split our city! I and other members of our city will know longer have a voice if we are put with Long Beach or Westminster. Long Beach is far from conservative. I live in Huntington Beach and want my representative to represent the views and beliefs of the citizens of my community NOT Long Beach or Westminster. Please do not do this. If you truly represent the people of this state you will listen. I know I'm not the only HB resident that feels this way. In fact, I'm guessin you won't have ANY that are for this redistricting. Please contact me. I would love to hear why this is a good idea.

Janet Edwards

Message Body:

We are the fourth largest city in our county and we certainly deserve to have a vote. We want and NEED representation in both houses in the state legislature. Please reconsider and DO NOT SPLIT Huntington Beach.
Thank you.

How foolish it would be to have 2 halves
of the same city!

Message Body:

I can't understand why you would want to split the city in half. We would lose representation in both houses and we are one of the largest cities in the county.

Subject: Huntington Beach Representation

Message Body:

According to my understanding, Huntington Beach (the county's fourth largest city) has been split for representation in both houses of the state legislature. It is not fair to split the City of HB in half and minimize its representation. I believed that one of the key objectives of the commission was not to split things, but to maintain the representation of the obvious groupings. This proposal seems to split the city and minimize its representation by grouping part of it with a different county. Keep Huntington Beach represented by one assemblyman and one senator.

Subject: Huntington Beach

Message Body:

The City of Huntington beach is so big that it needs it's own representation independent of other cities. Such a large city with a long history and culture needs to be represented by itself. You can't divide it in half and combine it with other cities with different background, history, economy and ethnic groups. Every city is unique enough that it has their individual problems, strengths and background, you need to respect this and give the opportunity to be heard by the nation. Don't silence any city. It is not fair. It is not democratic representation. Don't play with the votes and seats please. We voted at the actions and we expect to see what we want from our government, NOT the other cities combined with us!

Message Body:

You really missed the mark here. Huntington Beach is one of the largest cities in Orange County. To split our city in half and dump 1/2 of it in Los Angeles County is beyond reasonable. Our city and most importantly, our extensive coastal area will be under represented This ill conceived 'commission' is, once again, forcing candidates to cover a huge area w/ little common interests. What happened to the lofty rhetoric of keeping districts within county boundaries. Same old political double talk. I knew this was a disaster in the making when it appeared on the ballot. Now you have proved it.

Subject: Vietnamese Split

Message Body:

Dear Commissioners:

I would like to first and foremost thank you for your time and effort to create the fairest possible districts for our wonderful state. I especially want to commend the establishment of district 46, which connects many of the heavy latino areas of Orange County.

I do have one main concern, however. The Vietnamese community in Orange County, which is focuses in the cities of Westminster, Garden Grove, Stanton and Fountain Valley, is very unique. It is a shame for these people not to have a single representative that can share their interests to the United States Government in the House of Representatives. Please take this into consideration.

i do not think that fountain valley should be in the same congressional district as newport beach. these are two entirely different communities and any member of congress would surely favor the constituents of one city over the other!
