

REGION 4: LOS ANGELES

To: Commissioner Peter Yao
California Citizens Redistricting Commission

From: Christine Vinquist

Date: July 18, 2011

Pages: 40 pages (including cover sheet)

Subject: Testimony of Residents of Westchester and Playa del Rey

Dear Commissioner Peter Yao,

My name is Christine Vinquist and I am a local resident of Westchester who has collected signatures on a petition from residents of Westchester and Playa del Rey requesting that our neighborhoods be kept together and included with the Beach Cities to the south. Attached are copies of the petitions that were signed by the residents. There are a total of **371** signatures from all across Westchester and Playa del Rey. The signatures were collected in a single weekend with **overwhelming support from residents who were eager to sign after reading the petition.**

The neighborhoods of Westchester and Playa del Rey have common environmental coastal concerns and common traffic thoroughfares with communities to the south that unite us together while there are major physical barriers to the north (Ballona Creek and Wetlands) and east (405 Freeway) of our communities that divide our neighborhoods from areas like Marina del Rey and Inglewood.

We hope that you take the signatures on these petitions as evidence and testimony that the residents of Westchester and Playa del Rey wish to be kept together and included with the Beach Cities to the south of our neighborhoods. We do NOT wish to be included with inland communities such as Inglewood, Lennox, or Westmont.

I hope that such overwhelming testimony will encourage you to stop the blatant gerrymandering of our neighborhoods at the request of others and instead will group us with the communities with which we self identify. Thank you.

Sincerely,

Christine Vinquist

Westchester Resident

To: California Citizens Redistricting Commission

We favor redistricting maps that keep our community of Westchester-Playa del Rey together intact and oppose the current drafts which promulgate the division by keeping us partially incorporated into an inland district. Our area has traditionally been used for gerrymandering to the point where every level of government except the City Council bisects our community making it difficult to protect our quality of life.

- Westchester and Playa del Rey have a common Neighborhood Council which 12 years ago self-identified common interests as part of a LA City Charter mandate,
- Westchester and Playa del Rey have a common business service area,
- Westchester and Playa del Rey have common schools, churches, and service organizations,
- Westchester and Playa del Rey have similar housing and infrastructure issues including transportation which is primarily a north-south issue.

For these reasons, We, the undersigned residents of Westchester and Playa del Rey, respectfully request that our communities be included with the Beach Cities for State Assembly, State Senate, Congressional, Board of Equalization, and County Board of Supervisors districts.

To: California Citizens Redistricting Commission

We favor redistricting maps that keep our community of Westchester-Playa del Rey together intact and oppose the current drafts which promulgate the division by keeping us partially incorporated into an inland district. Our area has traditionally been used for gerrymandering to the point where every level of government except the City Council bisects our community making it difficult to protect our quality of life.

- Westchester and Playa del Rey have a common Neighborhood Council which 12 years ago self-identified common interests as part of a LA City Charter mandate,
- Westchester and Playa del Rey have a common business service area,
- Westchester and Playa del Rey have common schools, churches, and service organizations,
- Westchester and Playa del Rey have similar housing and infrastructure issues including transportation which is primarily a north-south issue.

For these reasons, We, the undersigned residents of Westchester and Playa del Rey, respectfully request that our communities be included with the Beach Cities for State Assembly, State Senate, Congressional, Board of Equalization, and County Board of Supervisors districts.

To: California Citizens Redistricting Commission

We favor redistricting maps that keep our community of Westchester-Playa del Rey together intact and oppose the current drafts which promulgate the division by keeping us partially incorporated into an inland district. Our area has traditionally been used for gerrymandering to the point where every level of government except the City Council bisects our community making it difficult to protect our quality of life.

- Westchester and Playa del Rey have a common Neighborhood Council which 12 years ago self-identified common interests as part of a LA City Charter mandate.
- Westchester and Playa del Rey have a common business service area,
- Westchester and Playa del Rey have common schools, churches, and service organizations,
- Westchester and Playa del Rey have similar housing and infrastructure issues including transportation which is primarily a north-south issue.

For these reasons, We, the undersigned residents of Westchester and Playa del Rey, respectfully request that our communities be included with the Beach Cities for State Assembly, State Senate, Congressional, Board of Equalization, and County Board of Supervisors districts.
