**Subject:** Redistricting of Simi Valley

Message Body:

Hi HIGHLY oppose the redistricting of Simi Vally (Ventura County) into an area that would separate Simi Valley and Wood Ranch and join it into an area including Santa Clarita, Antelope Valley, etc. Los Angeles County is big enough and has problems of it's own and unique to itself. Residents of Simi Valley and all of Ventura County live here because we cherish the small town feel and the services we receive. LA County is wrought with a reputation of high crime, traffic congestion, corruption, etc. I respectfully ask that you give a huge NO THANK YOU to this possible choice for redistricting. Makes one think of the reason why this is even an issue. Sounds as though somebody is afraid of not being re-elected in their own districts.

**Subject:** Agoura Hills

Message Body:

My home is in Oak Park (Ventura County) but the back fence of my house borders Agoura Hills (Los Angeles County. I have two offices, one in Los Angeles County (6 miles from my home) and one in Ventura County (8 miles in the other direction)> I am not alone as the following communities in the two counties share identity, schools, philosophy and concerns and should be grouped together in any redistricting plan: Calabasas, Agoura, Agoura Hills, Westlake Village, Thousand Oaks and Newbury Park. You could lump us with cities to the West if you want (Camarillo, Oxnard and Ventura) or to the North (Simi Valley, Moorpark) but you have to keep us together. Think the Las Virgenes, Oak Park and Conejo valley school districts. Thanks you.

Please keep up away from anything to do with LA County. They just won't be able to take care of our needs. ie in a few years they will have to vote on our farm lands. what will they care. I suppose in our household we prefer we go with Santa Clarita .

Subject: Ventura County Representation

Message Body:

The most certain way to take away the representation of Eastern Ventura County is to link it to LA via Malibu. Their population base will simply overwhelm us. It is more important to the residents of the same geography to be linked together and all of the inland valleys have much more in common. Santa Clarita has the same basic interests as Eastern Ventura County. Please re-consider this fact and do not join Eastern Ventura County with the Los Angeles population.
