People,  
I do not like that Inyo county is being thrown in with those living in So Cal for congressional representation. That means our reps will only listen to the larger population in So Cal and completely ignore us. It is not fair. We have a unique way of life here and live in a unique area. We should have representation that represents us, not the millions who live in So Cal. It is a much different life in So Cal than it is in Inyo County. Please change your maps.

Sincerely

Brian Law  
Bishop, CA
