Dear Commissioners,

I am a journalist for the GoodTimes in Sanat Cruz. The first draft maps of 2011 assembly districts has been a controversial issue in the county. One very publicized piece of the story has been the inclusion of Gilroy and Morgan Hill in CA-17, while Watsonville was excluded. I am writing a piece on the issue to update people here on whether that will change in future drafts, and how visible the change will be. As a small county to begin with (in population and square miles) being divided in state and federal government has been an issue on the past. Will this continue to be the case?

Finally, beyond the numbers of Latinos and whites, what other considerations is the commission looking at in the revision process?
