Subject: Assembly District Redistricting
Dear =embers of the Commission:

Having =ived on the western slope of El Dorado County since 1978 I am very upset at the prospects of being included with Roseville and Western Placer County in =he new Assembly redistricting as shown on your proposed =aps.

I have =oted that we have more in common in terms of economic and community interests as well =as geography with Elk Grove, Rancho Cordova, El Dorado Hills =nd Cameron Park than Roseville and Western Placer =ounty.

Therefore I am requesting that you reconsider your proposed boundary lines for this redistricting so as not to separate these areas of El Dorado County from =ther areas of closely linked along the Hwy 50 corridor and disrupt the long established relationships between our similar communities of Elk Grove, =ancho Cordova, El Dorado Hills and Cameron Park. Western Placer County and =oseville don't share our same economic, historical, agricultural and natural =esources and I and my family urge you to reconsider your decision as to the final =ap boundaries.

Thank =our for your consideration.

Charles Hill

Subject: Keep EDH and Rancho Cordova Together
</table

Dear members of the Redistricting Commission,

I was looking through your database of public comments the other day and I notice that there were some question marks attached to my May 19 comment that El Dorado suburbs should be kept separate from the western Placer Suburbs. Can this be corrected?

I want it to be clear; these suburbs are in many ways competing economic interests. We in El Dorado County need separate Assembly representation. So again **please keep the El Dorado Hill= area together with Rancho Cordova**. Citrus Heights borders Roseville; they belong in the same district. The first draft map of the "Eldo" district was great. Citrus Heights could simply have been kept whole by taking some of the Fair Oaks Census place into the El Dorado district instead of the small slice of Citrus Heights that was in it before. I guess that there were about six people from Citrus Heights that complained, but most of those were concerned about being split. The first round draft is a simple and more logical construction of the district than to go across the American River to tack on unrelated towns. A fake Folsom community of interest is fiction made up by a few people north of the river.

Thanks for your consideration.

Sincerely,

Don Nicodemus
Cameron Park, CA
El Dorado County

Dear Commissioners,

My name is Daniel Stephenson. I live in Shingle Springs (in El Dorado County). I'm a college graduate from Sacramento State. My family and I have lived here in Shingle Springs since 1988. This has been my home town for 23 years (I am 23 now). I consider the future of my district and live and breathe it day in and day out.

I have recently heard that the last draft maps for the Assembly and State Senate districts are being messed up for Sacramento and El Dorado Counties. I thought that it was wrong to put El Dorado Hills into those suburbs over in Placer County just because a few partisan people from Citrus Heights decided they didn't want to be in the same district as their neighbors. As someone who has driven up Highway 80, I know those suburbs right next to each other are hard to tell apart. So I am hoping that you will please listen to citizens here in the district who are saying that we in El Dorado Hills and Cameron Park should be in the same Assembly and State Senate districts as those in the towns on the south of Highway 50 (i.e. Rancho Cordova, Vinyard and Elk Grove). I kindly and humbly ask that you not break up a community over some questionably partisan reasons.

I drive down Highway 50 all the time. I know that Ranch Cordova and El Dorado Hills are more alike than Rocklin. Our local governments know this and are working together all the time. We have all kinds of traffic from El Dorado Hills going to Elk Grove on Grant Line Road. So much so that joint city and county agencies have worked out a plan to turn it into an expressway. In a lot of other ways the counties are working together in this area south of 50 because that's where development has been heading in Elk Grove and El Dorado Hills.

It is for these same reasons I ask that you please keep the Tahoe basin to be kept whole with its surrounding national forrests and ski country, an important part of the economy there.

Thank you very much for all you are doing and for listening to us concerned citizens,

Daniel Stephenson
