RECEIVED

JUL 23 2011

Dear Commission Members,

Per \_\_\_\_\_

We believe you have made an error in your attempted drawing of new district lines for Northern California. You have a difficult task and many issues to balance however the lines you have drawn for the North State are fatally flawed.

You have drafted districts that may meet the population guidelines but they violate everything that is truly important in Propositions 11 and 20. You have lumped portions of the far northern reaches of the state with Sacramento- why? Simply adding population from Sacramento into a district primarily comprised of rural agricultural counties is not a constant community of interest.

You have received hundreds of comments from the north state and the message is simple: keep us away from the coast and the delta and draft districts based on our major economic connections of transportation infrastructure. There should be an I-5, Hwy 395 and a Hwy 101 district. The North State should not stretch into Yolo or Sacramento Counties if it can be helped.

Major flaws exist in your maps published on July 11<sup>th</sup>, yet there are simple ways to alter the drawn districts that will be more consistent with regard to communities of interest and simply more logical.

**State Senate:**

Please remove Siskiyou County, Shasta County, the City of Lincoln, the City of Rocklin as well as surrounding rural agricultural areas of Placer County from the Mt. Cap district and place them in the more appropriate Yuba District. Next, remove Roseville, Rancho Cordova, Citrus Heights, Carmichael and as much Sacramento County as possible from the Yuba District and place them in the Mt. Cap district.

These changes only affect the Yuba and the Mt. Cap districts and have no effect on any other lines. Yet these changes create a much more logical and community minded district layout. By keeping the I-5 communities together and removing large suburban and urban areas from the Yuba District you are creating a more balanced agriculturally consistent and economically similar district. Additionally, by shifting Roseville and Sacramento Counties to the Mt. Cap district you keep established communities together in Sacramento and the very important Roseville/ Sacramento infrastructure link consolidated in one district.

**State Assembly:**

Shasta County should be located in the Yuba District and populations should be shifted in Butte to make this accommodation. The economic connections created by the I-5 corridor are very important and are a significant link between our communities. Siskiyou County would also be a very logical addition to this district but since the commission has decided that Yuba County must be linked with Sutter County the populations cannot work.

These are very simple changes and are truly the most logical choices for creating districts. Those of us who have lived here for decades know the basis of our communities and work together to improve our lives. Please don't split our well-established regions. We hope you will grant us this easy change and improve upon the work you have done.

Sincerely,

*Melanie McCombs*

*Shingham, CA 96088*

The economic connections created by the I-5 corridor are very important and are a significant link between our communities. Siskiyou County would also be a very logical addition to this district but since the commission has decided that Yuba County must be linked with Sutter County the populations cannot work.

These are very simple changes and are truly the most logical choices for creating districts. Those of us who have lived here for decades know the basis of our communities and work together to improve our lives. Please don't split our well-established regions. We hope you will grant us this easy change and improve upon the work you have done.

Sincerely,

### Citizens Redistricting Commission

901 P Street, Suite 154-A  
Sacramento, CA 95814

Dear Commission Members,

Thank you for the opportunity to address the concerns of our region and for making this an open process. As an elected official in the North State, I have deep concerns with the maps as drawn by the commission and publicized on the commissions' web site as the unofficial second draft visualizations.

You have heard from us when you visited during your initial drafting process, and hundreds of North States residents have commented in writing to the commission. Our comments have been consistent and clear: Keep us away from the coast, and group counties and communities along major transportation corridors. Those major links are US 395, Interstate 5, and US 101.

The recent maps produced by the commission are troubling but easily rectifiable. After discussing the issue with numerous community leaders and elected officials across the entire region, we have come up with a simple plan that will create an easy change for the commission and better represent the communities of the North State.

A simple swap of communities between the Mt Cap district and the Yuba district will better serve the needs of our citizens and will more accurately reflect the people.

#### State Senate:

Please remove Siskiyou County, Shasta County, the City of Lincoln, the City of Rocklin as well as surrounding rural agricultural areas of Placer County from the Mt. Cap district and place them in the more appropriate Yuba District. Next, remove Roseville, Rancho Cordova, Citrus Heights, Carmichael and as much Sacramento County as possible from the Yuba District and place them in the Mt. Cap district.

These minor changes only affect the Yuba and Mt. Cap districts and have no effect on any other districts. Yet these changes create a much more logical and community minded district layout. By keeping the I-5 communities together and removing large suburban and urban areas from the Yuba District, you are creating a more balanced agriculturally consistent and economically similar district. Additionally, by shifting Roseville and Sacramento Counties to the Mt. Cap district you keep established communities together in

Sacramento and the very important Roseville/ Sacramento infrastructure link consolidated in one district.

State Assembly:

Shasta County should be located in the Yuba District, and populations should be shifted in Butte to make this accommodation. The economic connections created by the I-5 corridor are very important and are a significant link between our communities. Siskiyou County would also be a very logical addition to this district, but since the commission has decided that Yuba County must be linked with Sutter County the populations cannot work.

As an elected official, I implore you to make this easy population swap so that our districts are more representative of the community and the region. There exists a broad consensus from both far northern California and the Sacramento region that this change would be very beneficial.

Thank you for your time and attention and please make this simple switch.

Warmly,

A handwritten signature in black ink, appearing to read 'Les Baugh', with a stylized flourish at the end.

Les Baugh

From: Frank Janson <[REDACTED]>  
Subject: Mt Cap Needs to be changed!

Message Body:

I heard coments in todays hearing saying that no changes can occure to the Mt Cap district so that the district will not be overly influenced by the Sacramento Region.

This senate district will be domindated by the south Placer, sub urban El Dorado, and Sacramento Portion regardless. Shasta, Siskiyou have no chance at having thier issues heard. They are and I-5 community and face different issues than the other mountian counties you have lumped them with.

The other Mountian counties all share US 395 and have a long history of Sacramento based representation.

You need to make the changes requested by the citizens for Northern California by switching Shasta, Siskiyou, Rocklin, Lincoln (and other rural South Placer areas) with Roseville and Sacramento Cities (Rancho Cordova, Citrus Heights, Carmichael, etc).

The Yuba district you drew has too many urban people and over the decade as they grow they will dominate this district. You have thus far created two Sacramento based districts instead of one, and eliminated all possibility of a unique rural voice in the Senate.

By the lines you have drawn for the Yuba and Mt. Cap senate districts you eliminate rural representation. Mt. Cap will have a Sacramento based legislator and he will be there for the entire decade while these lines are in place(read the Sac Bee PLEASE!). Your only chance to create truely rural representation in the legislature is by fixing the Yuba Senate District.

Hundreds of citizens have asked for this simple change- please for our sake, make it.

Thank you for your time.

Dear Commission Members,

We believe you have made an error in your attempted drawing of new district lines for Northern California. You have a difficult task and many issues to balance however the lines you have drawn for the North State are fatally flawed.

You have drafted districts that may meet the population guidelines but they violate everything that is truly important in Propositions 11 and 20. You have lumped portions of the far northern reaches of the state with Sacramento- why? Simply adding population from Sacramento into a district primarily comprised of rural agricultural counties is not a constant community of interest.

You have received hundreds of comments from the north state and the message is simple: keep us away from the coast and the delta and draft districts based on our major economic connections of transportation infrastructure. There should be an I-5, Hwy 395 and a Hwy 101 district. The North State should not stretch into Yolo or Sacramento Counties if it can be helped.

Major flaws exist in your maps published on July 11<sup>th</sup>, yet there are simple ways to alter the drawn districts that will be more consistent with regard to communities of interest and simply more logical.

**State Senate:**

Please remove Siskiyou County, Shasta County, the City of Lincoln, the City of Rocklin as well as surrounding rural agricultural areas of Placer County from the Mt. Cap district and place them in the more appropriate Yuba District. Next, remove Roseville, Rancho Cordova, Citrus Heights, Carmichael and as much Sacramento County as possible from the Yuba District and place them in the Mt. Cap district.
