Subject: redistricting lines

Message Body:

I really like the new boundaaries for Shasta county as it levels the playing field here.

Please adopt the new redistricting boundaries.

Subject: Further defranchising far northern California

Message Body:

Apparently this commission has no desire to fulfill the mandate the voters assigned to it...what you have done is reinforce the belief that those of us living in rural northern California have no purpose other than to supply resources to those further south, It is an outrage, and will ultimately only add to the decline of this state. Where there is no balance, there cannot be harmony.

Subject: I DO NOT LIKE IT!!

Message Body:

I live up here, and I do not want to see the disastrous policies of liberal central and southern California - which have led to overwhelming liberal majorities in politics, ridiculous labor and social policies sinking us in debt, and at least one glaring microcosmic example of the outcome of such failed policies - Maywood, California.

You may draw the lines, but you are not representing the citizens. It is clear that this so-called "Citizens Redistricting Commission" is nothing more than a tool of the left to complete the work - begun in populated areas but stymied in areas where folks have time to think for themselves - of liberalizing California and bringing this state to total ruin.

Rest assured, people, you are not the only ones to read this letter.

I absolutely, as a registered voter, do NOT approve of the maps as currently drawn. I live in Shasta County and DO NOT want to be lumped in with the west counties. If this is supposed to be a non-political process, I don't believe you have done your jobs! Go back and get it right!
