Hello Redistricting Commission:

Please move the town of Esparto (zip 95627) into one of two proposed neighboring Assembly districts (per my attached maps), and a proposed neighboring Congressional districts (per attached maps)
.
The town of Esparto is clearly not majority conservative. There are many many (more?) of us progressives. Currently we do not have representation while being part of the Sacramento Valley (Herger, Nielsen). I genuinely feel we belong with eastern/southern Yolo County, that tends to be part of the greater Sacramento region. Thus, I suggest placing Esparto in the WSAC district. If you cannot do that, then at the very least, place Esparto in the ECC district, although I suspect that is populated by conservatives.

Please please get Esparto out of a conservative district. We don't belong there. It is a dense area of rural Yolo, populated by the employees of landowners, businesses, and government.

Please let me know if you have any questions.
Thank you,
Kerry Wicker

Hi Kerry,

This page talks about map submissions for the comission:
http://wedrawthelines.ca.gov/mapping-plan-faq.html

The equivalency files we made today and the jpegs should be submitted to ███████████

Public testimony goes to: ████████████████

I would suggest calling them at ███████████ to see the best way to get your equivalency files to them and tips for the write up. Your files will be backed up and stored here along with your plans if you need them in the future.

Best
-Robin
