The county split document for the Board of Equalization fails to give a total for the District 2 population after the list of counties.

Message Body:

Getting rid of gerrymandering is absolutely vital to our democracy. Washington State resident here hoping your efforts spread to every state in the union. Really, we can't afford to go even one more election cycle with safe districts.

One note, I was thinking maybe we could take the process a step further and have a computer program nudge the maps towards the absolute minimum district safety-- kind of an */antimandering/* if you will.

This would, incidentally, amplify any state's power in presidential elections...

How can I get a pdf file of the assembly, congressional and senate districts?

When I click on "download" I'm just returned to the same page.

To Whom It May Concern:

I am disappointed to find it hard to see the maps. It would have been appreciated if there was a simpler way.

Dear Commissioners:

I have watched most of the videos of the Citizens' Redistricting Commission, from the beginning of the selection process through this morning's votes approving the 4 sets of proposed districts. I like what I have seen and heard - your districts are far superior to those the Legislature created in 2001. You were remarkably good at following the rules you were operating under and at excluding partisan political considerations.

I hope that you feel that the year you have sacrificed to drawing districts was well spent. Thank you for it from this pleased and admiring Californian.

Dear CRC Staff Members:

At this moment of Commission triumph, thanks to you, visible on the videos and behind the scenes, for facilitating the success and for forming the link between the Commission and us in the public.
