Subject: Zoning Districts

Message Body:

It is important to keep Upland and Rancho Cucamonga together as communities of interest in San Bernardino County. Neither city has anything in common with the nearest cities of Claremont, Montclair and La Verne to the west, which are in LA County.

The vast majority of residents in Upland and Rancho Cucamonga work within the boundaries of San Bernardino County and shop within the region of San Bernardino and Riverside Counties. Los Angeles county is about as foreign to this community as Sacramento.

As anchor communities in the region, the idea of splitting them apart between state legislative district will be disastrous to the communities ability to stay on the radar of legislators and compete evenly for resources highly sought after by neighboring power house communities.

By placing a partial section of Rancho Cucamonga and Upland in a district that stretches out to Pasadena it will insure that this community will be completely disregarded by its representation and it effectively dilutes our well knit community voice.

Do not split up Rancho Cucamonga and Upland, our community's ability to function as a whole has been a wellspring of support for San Bernardino County which will be completely undermined by the commissions current maps.
