To: [REDACTED]

Mt Baldy is a small community in the San Gabriel Mountains which is split by the county line that runs through it. However, we act as one town for all things concerning us. For example, fire, of course, is important, but our K-8 school, our Post Office, or up coming museum all act as one town. This should not be split up. We have a hard enough time getting recognized now. If anything, the line should be drawn to include the entire area, not split us up.

Sincerely,

Gwen Rodman, resident for 33 years

Subject: Senate District 22

Dear Commission Members and Staff:

For Senate District 22 - LACVN, we urge you to connect the West San Gabriel Valley -- Monterey Park, Alhambra, and Rosemead -- with East San Gabriel Valley -- Walnut, Diamond Bar, Hacienda Heights, and Rowland Heights. Connecting these two regions is best for these communities because these communities share similar characteristics: income levels, education levels, language usage, and race.

Of particular importance is that these two regions have one of the highest concentrations of Asian immigrants. As Asian immigrants, they share similar challenges, concerns, and needs, such as language barriers and access to government services; these residents would benefit from residing in the same Senate District so that their voice will be magnified, leading to their needs and priorities more likely to be addressed by an elected official who shares a similar background, history, and culture.

Please unite these two areas together.

Thank you for your consideration.

Sincerely,

--
